SAN JOSE. SAN JOSE.
BERFORD & CO'S LINE
OF EXPRESS MAIL STAGES,
HALL & CRANDAL, PROPRIETORS.
Are now running every morning to San Jose, leaving Berford & Co's office in the plaza, at 8 o'clock, A. M., and the City Hotel in San Jose at 7 o'clock, A. M.
The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skillful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.
The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to *safety*, while the drivers, who have served a long apprenticeship from New England to Mexico, make the *quickest* time and *never met with accidents*, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the line a trial.

THE WORLD GROWING RICH AT THE EXPENSE OF CALIFORNIA.

We cut the following paragraph from the N.Y. Herald, Sept. 28th:

"By an estimate which approaches very near the truth, it is calculated that the yield of the California gold for the last 12 months, has amounted to the immense sum of one hundred and fifty millions of dollars; and that the product for the year which will expire in the month of September, 1851, will not fall much below three hundred millions of dollars. The addition of such an immense sum to the circulating medium throughout the world, could not but exercise an influence on the comparative value of the precious metals. Its effects are even now partially apparent to the political economist, and to the merchant and capitalist. Money abounds in England and the United States. In the former country it is actually a drug in the market, and there it is proportionally abundant. The constant supply of gold from California has stimulated industry as well as commerce, and opened new channels of activity and enterprise. It has worked a palpable change in New York as may be seen in the increased importations from abroad of silks, satins, laces, and other articles of luxury, to the value of many millions of dollars. It is seen, also, in the large sums expended by our citizens in enjoyment. We have six or seven theatres in full blast, all of which are filled nightly, besides concerts and other amusements too numerous to mention. It is observed, also, in the advanced prices of real estate, houses and tenements and in every thing else."

While this enormous production of gold is enriching the world, the country bearing it has, because of the tardy movements of the general government, struggled through difficulties which no other country could surmount. Thus far, California has been a mere nominal portion of the United States, outside her laws, beyond her protection, but within the reach of the long fingers of the national treasury, which have been thrust into our pockets to take from us our sustenance. Look at the wealth that California has been forced to throw into the laps of her neighbors! One hundred and fifty millions of dollars in twelve months—one hundred and fifty millions! And because government has refused us a mint, we have been compelled to part with this enormous amount of gold at sixteen dollars an ounce, when every ounce was worth over eighteen dollars. The difference between the actual value of this gold and what we have been forced to sell it for, is over eighteen millions seven hundred and fifty thousand dollars! This $18,750,000 is a total loss to California, and in consequence of the premium which gold commands in the Atlantic States, the whole $150,000,000 has passed out of the country, when the greater part would have been invested here if we were allowed to make our own coin out of our own material, and realize its true value.

—But we will confine ourselves for a moment to the $18,750,000 which California has clearly lost. This has been effectually a pirect tax of twelve and a half per cent. upon every dollar the miner, laborer, or mechanic has produced in the country. Add to this, that we have paid an impost duty of twenty per cent. upon all the flour and other necessaries received from foreign countries,—that our state, county and municipal governments are supported by additional direct taxation, and if the world is not astonished at what California has patiently stood up under, then wonders are at an end. Money may be a 'drug in the markets' of Europe and the Atlantic States, but in California, the very source of money, we find the market drained semi-monthly. We find interest ten per cent. a month, and money hard to raise at that. The effect of this constant exportation of gold is most disastrous to the interest of our young and undeveloped State, and yet we have no power to apply the remedy. Nothing but the establishment of a mint among us can permanently relieve us of our periodical financial embarrassments, and Congress alone has power to supply the desideratum. It is no great thing to pass a bill providing for our wants in this respect. Let Congress spend two hours on the subject, and the work is done. And yet, for the want of this trifling attention from the government bound to protect us, we have in the last twelve months lost over $18,750,000. Considering the embarrassing questions that have distracted Congress, we can make some allowance for past remissness of duty toward us. But by the last mail, we have reason to believe the mint bill has been postponed till another session. There can be no good excuse for this further delay. The sectional difficulties of the country had passed away. Congress was free to act on the subject. The failure to do so, was sheer neglect of duty, and for the want of a few hours' legislation, California may lose $18,000,000 more.

WHAT SHOULD BE DONE.

We have already expressed our opinion at length several times relative to the erection of Benicia into a port of entry, and leaving Sacramento City in the back ground. The fact is, the business is here, and there is no more reason why our vessels should be stopped at Benicia, a locality where there is no business or call for merchandize whatever, than at Saucelito, Angel Island or the old Spanish fort at the mouth of the harbor. For our vessels have to pass those points, as well as a thousand others of equal mercantile importance with that spot where Benicia is laid out, and where Commodore Jones and other influential citizens own vacant house lots innumerable.—What perfect stuff, to talk about the difficulties, the shoals and sunken rocks that lie in wait for unfortunate vessels attempting to get at the San Francisco wharves! When every one knows that for two years, hundreds of vessels sailed in and out from San Francisco without a pilot, and the instances were very rare indeed of one going ashore.

If any places should be made ports of entry above San Francisco, clearly those places should be Sacramento and Stockton, whether we take into consideration the geography of our State or the wishes or convenience of our populace. If we are to be merely ports of delivery, why then, since, owing to the real geography of our State, (not such as is represented to be the geography of California on the floor of Congress,) vessels cannot but pass directly by San Francisco, the placing of a custom house at Benicia is a sheer waste of public money.

The news we have received at the very latest hour gives us hope that the wishes of the people of California have been so far consulted by Congress, that San Diego, Monterey, San Francisco, Sacramento and Stockton have been erected into ports of entry. If this has not been done we trust the universal indignation at and reprobation of any other course, which the press of California has for the passed week or two given expression to, will have its proper effect in Congress.

The fact is, the people are indignant that a few speculators should succeed in bolstering up, so far as Congress is concerned—a town which has, in California, become a bye-word—and in hampering those places marked out by nature for large cities.

We have received a paper from Senator Gwin, and we are happy to learn that he has taken a course in this matter which our people, from one end of the State to the other, applaud. But it really does appear as if, so far as the Senatorial delegation is concerned, he fought almost alone.

We want to send a man to Congress who is fresh from California, who understands our wants at the present time, and who will work for us as we believe Senator Gwin and Mr. Gilbert have worked. The great Sacramento and San Joaquin valleys, and the mines adjacent, should be represented on the floor of the Senate. And when we come to elect our representatives we will put one at least on the floor of the House.

Nov 10, Geo D Butler, 31, New York
" 11, Mr. Phillips, 24, Mass
" 11, Ferd Leinmeyea, 22, Germany

Of the above only two were from the cholera hospital and eight from Sacramento hospital, This report is certainly very cheering, and we trust that in a few days we shall not have a single case of cholera to report.

The effect of this great decrease of mortality is already apparent in our streets. Business is much brisker, and people are beginning to return to the city.

LATER FROM THE INDIAN WAR.

Col. Rogers, the well known sheriff of El Dorado county, arrived in our city last night, direct from the scene of difficulties. He states that the disturbances are of no light nature, but that such is the condition of things that promptness of action is requisite. The troops who had been collected on the spur of the moment, have had already four serious skirmishes, besides several others. Although sufficient in number they are not properly armed, and are out of provisions.

Col. Rogers has come down to confer with the Governor upon steps proper to be taken.

Our last news was of the skirmish in which Lieut. Col. McKinney was mortally wounded. Col. Rogers states that upon reception of the news of Col. McKinney's death, he pushed immediately on with his own command after another party of indians, who had committed depredations near Johnson's Ranch the day before. Indians were found and followed till dark. Rogers' party then encamped, and started again at daylight on towards Park Valley, near a place where it was supposed the Indians would be found. On arriving at this spot it was evident from the remains of fires that the Indians had recently been there, but none were to be seen.

Col. Rogers states that the Indians are collected in parties, headed by white men, and that they are scattered all over the country between the South Fork of the American and the Forks of the Macosumnes. [Sac. Trans.

☞ The Office of Publication is on the second story of the building, in Montgomery street, occupied by Payne & Sherwood, Auctioneers, where advertisements and communications may be left. The management of the business of the establishment will be under the charge of Mr. A. SKILLMAN.

☞ Thompson & Hitchcock, agents of Gregory's Express, corner of Wall and Pearl streets, New York, are authorized to receive advertisements and subscriptions for the Pacific News.

AGENTS FOR THE PACIFIC NEWS.—Col. Joseph Grant is an Agent for Sacramento City and the valley above.

D. H. Mason, Esq. will hereafter act for us in San Jose, to whom subscriptions may be paid.

OFFICE WANTED—Suitable rooms for the Printing and Publication Offices of the *Pacific News* are wanted, in some central and eligible situation in or near Montgomery street. Rooms in a brick building preferred: or any party about to erect a brick edifice may make an arrangement with the publishers by application at the office.

OUR STEAMER PAPER.

We shall issue this morning at ten o'clock, a splendid Steamer Edition of the *Pacific News*, which will be everything that can be desired to send to friends in the States. It will contain all the necessary commercial, local, and cholera intelligence of California, besides a vast amount of other highly interesting matter.

☞ A mail bag for papers will be kept open at our counting-room, untill the latest hour of the sailing of the steamer.

CITY SCRIP.

Great inconvenience is experienced by the public in regard to City Scrip, from the largeness of the denomination in which it is issued from the Comptroller's office. To obviate this inconvenience has been the subject of much consideration on the part of many who are anxious to see the credit of the city sustained; and we are glad to know that a movement is in contemplation having this subject in view. As long as the City is unable to *pay in money*, and as long as we are to have this species of paper currency, let us have it in a shape as little objectionable as possible.

The plan most favorably thought of, is embodied in the following form of petition, recently presented to the Common Council; which, however, does not name the banker who shall be the agent for the re-issue proposed therein:

To the Honorable the Common Council of San Francisco:

"That your petitioner may be permitted to issue "in aid of City Scrip," (which in its present form is in such large amounts as to depreciate its value as a marketable security, as well as to cause much inconvenience to its holders) Small Notes, countersigned by your Comptroller, for sums of $5, $10, $20 and $50, to be receivable for all city taxes, assessments and dues; the original scrip thus exchanged to be deposited with His Honor the Mayor, your Honorable Board, or your Comptroller, as you may deem advisable, until the period of redemption.

"And your petitioner proposes to receive only one half of the interest due upon such securities as he may thus exchange, whereby a saving will be effected to the city of a very considerable sum in interest alone, whilst the smaller and more convenient form of the issue will at once tend to raise its marketable value, and to afford greater facilities and advantages to the citizens at large."

We hope this plan will be adopted, if none better should be proposed; for not only would the city save 18 per cent. in interest, but the lesser denominations would be an immense accommodation to all the citizens who should have to pay or receive this description of paper. It would certainly make a very convenient currency so long as a necessity existed for these issues, or until redeemed from the proceeds of a regular loan. It will be simply making what is now an inconvenient and depreciated currency more tolerable, and as a consequence appreciate its value, benefitting thereby every holder of it. This matter is worthy of attention, which we hope will be given it by the people and the Council.

SPECIAL ELECTION.—By reference to the notice of the County Judge, in our aduertising columns, it will be seen that a Special Election is ordered for the 25th inst to fill the vacancies in the offices of Justice of the Peace and Constable, occasioned by the death of Mr. Hoffman, and the removal from the county, of Thomas H. Ferris. Several candidates are presented for the Justiceship, and probably more will "come out."

DEMOCRATIC GENERAL COMMITTEE.—A notice calling a meeting of the Democratic General Committee, for the purpose of making nominations, will be found in another column The offices to be filled are Justice of the Peace, in place of the late Mr. Hoffman, and Alderman in place of Mr. Gillespie.

SAILING OF THE STEAMER.—The Tennessee sails at the usual hour tomorrow, and will carry the regular semi-monthly mail for the States.

CLERKSHIPS.

Our remarks yesterday morning, in regard to the appropriating $5000 for clerk hire for sundry officers, has been construed into a general opposition to the whole system of clerkships. This was not the intention, nor is it our views of the matter. The Recorder should have a clerk, and we have no doubt the present capable officer occupying that post, earns every dollar of his money. The Mayor should also have a clerk, at a fair salary, and equally so, the City Attorney. No perquisites whatever attach to his office. The salary fixed by the Common Council is all he gets, and that is paid in scrip, held at a ruinous discount The office has no doubt deprived him of a large amount of business. If transacted for other parties it would have amounted to five times the salary named, even though that were paid in cash. The land and water lot suits of the city alone have required the devotion of a large share of the time of the Attorney, in addition to the immense amount of other business which has devolved upon him, and it is probably just and right that the Common Council should make a liberal appropriation for clerk hire for this officer. Thus far he has paid a clerk out of his own pocket.

Put a clerk for the Street Commissioner, is quite another affair; $5000 is of itself a good salary, but when an officer gets $8000 in addition, with office rent and the *et ceteras* free, it seems too much like squandering the the people's money.

While upon this subject, we will say that we were not aware that the ordinance creating the office of Street Commissioner's Clerk was passed a long time since. The mischief has already been done, if any attaches to the creation of the office, but the principle remains the same. We are in favor of an economical administration of the city government, and whenever we think there is an unnecessary expenditure we shall say so, whether it effect political friends or foes. We do not oppose Mr McCarthy more than any other man. Personally we have much respect for him, and should regret any ill feeling that might arise on account of a free expression of opinion on our part.

HEALTH IN THE MINES.

Almost every day brings to us some familiar face of a friend that we have not seen before for months, or perhaps for a year or more. One of these saluted us yesterday morning in the person of D. B. Woods, who has been the past year in the southern mines, and mostly on the Tuolumne. Mr. W. parted with us at Cape San Lucas, May 19th, 1849, since which we had not before seen his smiling face. He appeared the picture of blooming health, and we have been surprised to remark the same in the case of most of our friends who have visited us from the mines. In fact, from all sources of information, we are inclined to believe, that for the past year the health of those in the mines has been fully as good as that of any in California. And such we believe it will continue to be. That the mountain air should produce sickness, if those who live in the mountains partook of wholesome food, we do not imagine. But alas! the nutrition of the sick miner is deficient. Very little suitable provision for sickness exists in the mines; and when once taken ill, but little aid can be afforded him.

Mr. Woods informs us that in consequence of this, several of those who were near him on the Tuolumne this past season, have died. He had himself assisted in performing the last sad offices for eight who have deceased in his vicinity.

Mr. Woods has in his possession many interesting memoranda of his life in the mines for the past sixteen months, some of which we are hoping he may be willing to give to the public before he leaves us for his home in the Atlantic States. To a highly cultivated mind, he has united a deep love of nature, and an extensive knowledge of mankind. We are sure Mr. Colton's experience of a miner's life would be quite lacking when compared with that which Mr. Woods might be able to give the reading public.

THE CHOLERA.—The precautions which have been taken in reference to this disease, have already almost caused it to disappear from among us. Thanks to our Board of Health, and careful physicians, we believe that no further ravages may be apprehended from it, if suitable care be continued to be exercised.

THE ILLUSTRATED NEWS.—The fifth number of this sheet has just been issued. There are several finely executed engravings, and altogether it is exceedingly desirable to send to friends in the States. The price of each number has been reduced to fifty cents. It can be had at Cock & Lecount's, in Montgomery street.

ADMITTED TO PRACTICE at the present session of the District Court of the Eighth Judicial District, Hiram C. Hodge, of Nevada City; George Rowe, of Downieville; John H. Mitchell, of Rough and Ready; and J. B. Rosborough, of Marysville.

OUR POLICE.—We have several times of late been inclined to say a few words respecting this important and useful class of our city officers. On both occasions of public display which have taken place recently in this city, we were, in common with many others of our fellow citizens, much gratified by the fine appearance of the body of the Police as seen in the processions. Their whole bearing was in the highest degree manly and respectable.

By the active services of our policemen, a large number of those who would otherwise set all laws at defiance and prey upon the community, are kept at bay and often brought into custody for their misconduct. By night and by day, they are on duty, while others asleep or awake, are at their ease and in safety in consequence of such exertions. The rainy season, now nearly at hand, will add to the amount and the severity of the labors performed by the police force of the city, and should be provided for by giving them satisfactory pay and quarters.

The present station house beneath the City Hall, is altogether inadequate to the purpose for which it is used, and ought to be removed. In the rainy season, it will be far worse! When the jail is to be completed, no one can tell, and meantime things will naturally become worse instead of better.

Another evil justly to be complained of by those connected with this service, is the inadequate pay. It being only in scrip, which has hitherto been far below par value at which they receive it, their pay has been of little value. The carpenter receives more than they. All others possessed of abilities equal to those necessary to them, have been receiving more than they, and in *cash*; while they are compelled to await for months the amounts due them to be paid in cash, or to sell their scrip at a ruinous depreciation.

THE SQUINT-EYED STREET.—Street Commissioner McCarthy appears over his own signature in yesterday's *Herald*, in defence of the *strabismus* which affects Sacramento street, near Kearney. He admits that it does not conform to the "reported grade from that Department," and puts the blame upon the City Surveyor for "misleading" the owner of the property opposite the deviation alluded to. If the corporation had adopted the reported grade, what business had the Street Commissioner, the City Surveyor, or any body else, to alter that grade without the consent of the authorities, especially when the alteration, instead of being an improvement, makes an "awkwark," squinting, side-hill appearance. If *he* authorized the change from the adopted grade, and has the power to do so, the adoption of a plan by the Common Council is a perfect farce.

Mr McCarthy claims to be a Democratic office-holder and no doubt takes it unkindly in a Democratic journal to say any thing that should intimate that his duties are not properly and efficiently discharged. We have no personal feeling in the matter, and said what we did out of regard to the people's interests more than our own.

"WHEN DOCTORS," &c. We happened to see ye-terday morning in the columns of one of the city papers, what we conceived to be an ungenerous attack upon Dr. Pigne. We are not at all acquainted with this gentleman ourselves, nor with the author of the ridicule attempted thus strangly against him We simply know that Dr Pigne wrote a very sensible article in the columns of one of our cotemporaries a few days since, for which Mr. L. sees fit to try to be scurrilous at his expense; For ourselves, we do not attribute all wisdom and knowledge to any one man. No grand usurper has yet entered the fields of science and learning, or of experience, and appropriated all to himself. And it is a real delight to see educated men who are truly modest.

As we said before, we do not know either of these gentlemen. We suppose they both claim to be members of the medical profession, and as such worthy of their office. But we will venture the opinion, as an observer of men, that Dr. Pigne, by his appearance in print, is vastly the superior of his traducer. Of all sentiments which dishonor men of intellect and general intelligence, we esteem none productive of more harm than *professional jealousies*.

GAME.—Immense quantities of grants and ducks are now to be found in our market, in addition to our usually large amounts of venison, elk, bear, rabbits, curlew and snipe, and forming, probably, the best supplied game market in the world. The only thing to be regretted about this supply of game is, the unhappy reflection that so many lives are lost by those who pursue the business of hunting it. Nearly every day some unfortunate accident occurs among hunters.

☞ Messrs. Starr, Minturn & Co. sell by auction this morning, several desirable houses now landing on Cunningham's Wharf.

WHO IS MR. GRUBY?

It is astonishing what a well-informed class of men the editorial fraternity of England are. The solemnity with which they occasionally treat upon common place matters pertaining to other countries, and the ridiculous blunders made by them respecting men and things in the United States, are exceedingly rich. The following specimen from the *Athenæum*, a leading literary Journal, must have taken down the modesty of the editor of the New York Tribune several feet, for it is certainly "a first rate notice," and by a most enlightened London critic, too:

"*Hints Towards Reforms*—By Horace Gruby.—Mr. Horace Gruby is a name beginning to be heard on this side of the Atlantic. In his own country he is well and honorably known as a man of letters—the son-in-law of Bryant, and editor of a high class paper in New York. The 'Hints' now published consist of a number of lectures, essays and orations, somewhat in the manner of his countrymen, but with fewer of his faults. 'Organization of labor,' if we may take Mr. Gruby as a sample of his order, is making progress in the United States; as, indeed, it is in our own country, faster than they who do not minutely watch the tendencies of opinion are at all aware. On the whole, we have read Mr. Gruby's orations with pleasure. Their literary merits are unequal,—but there is always a mine of good sense and wise counsel in them."

A GORGEOUS SIGHT.—The New York Commercial Advertiser has a letter, dated "Niagara Falls, Sept. 14th," from which we make the following extract:

"It is now half past 10 o'clock, P. M., and I have just returned from one of the most gorgeous sights I ever beheld—the lunar bow. I was sitting and conversing with Col. Bruce, when intelligence was brought that the lunar bow, in all its splendor, was to be seen. We proceeded to the Table Rock, where one of the most magnificent sights presented itself that human eye ever looked upon.

A bow of great brilliancy spanned the Falls, resting on the water on the south side, and its northern arc extending on Lundy's Lane. The moon was just at that altitude which made the sight most magnificent. A person might be at the Falls a hundred times and not be so highly favored as was our party. A large number of gentlemen saw it, but only one lady had the courage to venture down, and she was the wife of the military secretary."

THE WEATHER.—We know "the weather" furnishes a prolific topic for paragraphs; but we do insist upon it that such pleasant days and glorious moonlit nights are no where to be found in equal perfection of beauty to those we are now enjoying in California. If the gold mines *should* happen to give out, as is predicted by croakers on the Atlantic side, we shall still have left as delightful and healthy a climate, as fertile and romantic valleys, as wildly picturesque and gigantic mountains, as can be elsewhere found upon the "round globe." This will be some comfort, certainly.

EXPRESS ARRANGEMENTS.—Mr. J. W. Gregory sends by the steamer Tennessee, to-morrow, a special messenger, who will take charge of all packages and treasure.

In addition to his other extensive express arrangements here and in the States, Mr. Gregory has established an agency in Honolulu, with a semi-monthly communication, and also at Portland, Oregon, to which point he will send by every steamer. He is also making arrangements for establishing a branch of his house at Canton, China.

☞ THE WINDMILL has become a place of refuge of late, we understand, for those whose fears compel them to leave this lower part of creation to escape from cholera, which they suspect will take them out of the world altogether. Now we do believe that a hill, or a convexity, is a better location, other things being equal, than a valley, or a concavity, would be. To any one familiar with the locations of the Montgomery, and the New England Houses, it will very readily appear that the Windmill Hight is far preferable to that of either of them.

"THE PIONEER."—We are requested by a friend to make inquiries for this little craft, which left New Orleans on the 13th of June last, to come to California, via Lake Nicaragua. The passengers and schooner have not recently been heard from, and from the difficult nature of the voyage, some anxiety is already felt for their safety.

THE ADELPHI.—This popular place, under the management of Mr. Wilson, drew a good house last evening. The Monduit Family are fully equal, if not superior to the celebrated Ravel Family. They appear again this evening. On Saturday evening, the "Greek Slave" takes a benefit. Let it be a bumper.

SANTA CLAUS.—How many "little folks" *at home* will be looking anxiously for the annual visit of Santa Claus, whose fathers are absent in California, can be best answered by those of us whose memory dwells upon the laughing eyes and rosy cheeks which made parting so hard to bear. To think how cheaply happiness may be conferred upon children by the presentation of trifling mementos, should induce every one to not be forgetful in this respect. Some nice thing to wife and children from the absent husband and father will be trebly valued when received from such a distance.

The present steamer will arrive in New York just before Christmas Day, when thousands of stockings will be hung up in the chimney corners in confident expectation of the coming of the good-natured Saint: and how great the disappointment if nothing be found therein. Don't forget, then, ye who have loved ones at home to make glad their hearts on the coming Holidays by some token of affection, that shall prove them fondly remembered.

THE CALIFORNIA BILL AT THE SOUTH.—*The Papers Rampant.*—The *Charleston Mercury* comments severely upon the passage of the California bill, styling the action of congress as a victory over law and the constitution. The same paper, speaking of the firing of a salute in Washington, in honor of the passage of the bill, says that the burning of gunpowder may not stop there. The *Savannah Georgian* talks in this insane style:

"We may unite great seas by the mastery gained over an intervening continent—we may banish beggary from this land, make starving a curiosity by hoarding oceans of wealth—the government may school every man, woman and child—it may make its every square acre a garden, but after all this, what would this Union be but a better sort of purgatory, in which the spirit of liberty was imprisoned, without a union of the hearts of this people. *That union no longer exists.* As honest men and faithful chroniclers we are bound to say, that never in the history of this people have men—yea, whole states of men, been more miserably divided—more hopelessly sundered by bitter heart-hatred, than now divides members of this Union. We really doubt if the patriots of 1788 ever felt towards the Hessians a more intense and unrelenting enmity than has now become the general temper of whole communities, North and South."

THE HUSBAND OF LOLA MONTES SOLD OUT.—The Paris correspondent of the New York Evening Post, in his letter of the 22d Aug. says:

The great talk of the week, unconnected with politics, has been the flight of the husband of the celebrated Lola Montes, leaving his creditours in the lurch, but in possession of a splendid establishment on the Quartier Beaujon, consisting of a hotel sumptiously furnished, annexed to stables full of fine horses, and a coach house of fashionable vehicles, all of which will, it is said, be bro't to the hammer *par autorite de justice* to pay debts. The fortune of this gentlemen was so puffed up by the papers, that it procured him credit to an immense amount: and credit at times, and under common circumstances, is easy to be obtained in Paris, for a certain period, but here it was carried to too great an extent. The bubble has, however, at length burst; Lola is said not to have left the capital; decidedly this person has had a most adventurous life, at which she does not appear to be at the end—I mean of her adventures. She can't help occupying the world with her name.

PROFITABLE WORK.—Three gentlemen returned yesterday from the mines, bringing with them a little over $80,000 in gold, which they deposited with Wells & Co., until the sailing of the steamer. This amount has been dug out in *seven weeks*. Really, the mines have not yet *all* given out.

JENNY LIND.—Our Steamer paper will be embellished with the only portrait of Jenny Lind ever published in California.

☞ TO THE EDITORS OF THE PACIFIC NEWS: Gents.—On Monday morning, I was summoned by word of mouth and not by a written summons, to appear as a juryman at the Superior Court. Not being well, I sent a substitute, and he found the Court had adjourned. On Tuesday I was again summoned to appear before Judge Shattuck to show cause why I showed a contempt of Court. I went with my substitute and after giving the above excuse (that I had been unwell,) the Judge remarked that "bought meat tasted better than unbought," and I was fined $15. Now, I wish to know through the columns of your paper whether this is in accordance with justice, and whether a good and sufficient excuse should not exempt me from fine, and should I or not receive a summons by word of mouth or one issued by the Court.

Respectfully yours,

YUBA QUARTZ MINING Company—Capital $200,000, in one thousand shares of $200 each. Deposit, one-third upon single shares, and one-sixth upon three and upwards

Chairman, SAMUEL BRANNAN, Esq.; Secretary, Mr. GEORGE PIERSON.

References to Col. Chas. L. Wilson, Hon. J. Bidwell, Dr. Hibbard, Prest. of Los Angeles Mining Co.; Gen. Winchester, Pacific News.

This Company is formed for the purpose of working a Gold Quartz Vein recently discovered upon the Northern Yuba, whose richness and extent promise a "Golden Harvest" to the shareholders. The locality affords water and every facility for the advantageous and economical application of machinery, is approachable by a good wagon road and within an easy distance of the settlements.

The extent of the vein is represented as very considerable and Messrs MOFFAT'S assay of the ore, of which a copy is subjoined, is referred to as the most convincing proof the proprietors can submit of its value and importance.

Proposals have been made by an eminent Firm in this city to provide machinery upon terms highly satisfactory and advantageous to the company, which are now under consideration; and in a few days the discoverer of the vein, accompanied by a duly authorized deputation from the shareholders, will proceed to the spot, to complete the arrangements for the immediate prosecution of the undertaking.

Shares may be had of Messrs Argenti & Co., Messrs. Page, Bacon & Co., Bankers, and at the offices of Messrs Marriott & Co., Loan and Mining Agents, Montgomery street, and Mr. S. Brannan, whose receipts for the payment of the deposit, will entitle the holder to the share ticket when issued.

UNION HOTEL—Under the management of ISAAC M. HALL.—This establishment, situated on Portsmouth Square, San Francisco, State of California, will be opened for the reception of guests on THURSDAY, the 7th of November, inst., under the management of Isaac M. Hall, late of the Eagle Hotel, Rochester, New York. The building has been erected within the last three months; built of brick, entirely fire-proof, five stories high, fronting on Portsmouth Square, 50 feet, and extending back 160 feet on Merchant street. There are 100 rooms, all finished in the most substantial manner, lathed and plastered, and hard finished walls. Each room is furnished with a stove and other bedroom furniture complete; bells are fitted up, communicating with the office from each room. The dining room will accommodate 150 persons, and the public may safely confide in the well known talent of Mr. Hall to make this department one of the most inviting of the house; all the delicacies of the season will be found on the table, and the wines the best the market affords. The proprietors confidently entertain the hope that this enterprise, involving at least $150,000, will meet its due appreciation by the public, and that the effort on our part to present a hotel where every comfort afforded in hotels in the Atlantic States may be found, will meet the reward of public patronage.

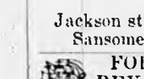
NOTICE TO PASSENGERS.—Under the head of vessels advertised for REALEJO and PANAMA, the ship DUMBARTON, C. A. Smith, J. H. Craignutes & Co., her owners, Cunningham's wharf, they being well aware of gross frauds practised on the public by irresponsible persons who have bought and fitted up at a trifling cost old ships, and having received money by large bills of fare have pocketed the proceeds and left the passengers to find their passage home as best they could, without a dollar.

I would refer passengers and the public generally to the following advertisement of the ship CABOT, under the same firm as the ship DUMBARTON, of August, the 29th, 1850, of which the following is a copy:



CABIN PASSAGE TO PANAMA ONLY $65—First ship for Panama. To sail positively on THURSDAY, 29th. The A 1 clipper built, coppered and copper fastened passenger packet ship CABOT, 600 tons, Wilson, master, will be dispatched as above, direct for Panama, without touching on the coast. Her reputation as a fast sailer is well known. She was one of the fastest ships in the East India trade, and made her passage from New York to this port, 120 days. With the prevailing winds she will make this passage in 25 days. Her accommodations are splendid. Her cabin, aft, is mahogany finished and carpeted, with commodious state rooms. All the berths in the intermediate cabin will be furnished with mattresses and bedding. Her provisions are guarantied to be superior to any vessel which has left this port. For a list of her provisions, passengers are referred to her mammoth bills. Her officers will be found experienced and gentlemanly, and one of her owners will accompany her. They intend to make her equal to any, and superior to most of the steamers, and they guaranty that every thing shall be furnished as stated. For further particulars or passage inquire of C. A. SMITH, at Dalton House, Jackson street, or J. H. CRAIGMILES, or Buckelew's store ship.

N. B. The Cabot may be seen at Buckelew's pier. aug 26

And likewise to the following memoranda of the steamship Antelope, on her arrival at this port, 25th Oct. 1850:

"The ship CABOT had arrived at Acapulco, in thirty-three days, and had been condemned; the passengers to find their way as best they could."

And I would ask C. A. Smith, J. H. Craignutes & Co., and the public, who has practised what they call frauds, (and rightly too.)
n12 3t Callard & Co.

SUPERIOR PACKET FOR REALEJO, PANAMA, and VALPARAISO—The fast sailing A 1 coppered and copper fastened ship DUMBARTON, 1000 tons burthen, Gibbs, master, will leave for the above ports on WEDNDSDAY, Nov. 20th.

Having dispatched within the last three weeks, with signal success, the incomparable packets OSCEOLA, CLARISSA ANDREWS, and ELLEN BROOKS, and having rendered complete satisfaction to passengers in all cases, we now offer our favorite packet, the magnificent ship Dumbarton, costing about Thirty Thousand Dollars, confidently relying that such a fine and roomy vessel will not fail to command the liberal patronage which she deserves. We are well aware of the gross frauds practised by irresponsible persons, who have bought and fitted up at a trifling cost old whaling crafts in the harbor, which never intended to sail, and having deceived many by large bills of fare and low rates of passage, have pocketed the proceeds, and left them to find a passage home as best they could, without a dollar.

Passengers may rest assured that the Dumbarton will leave in 48 hours after her advertised time. Her accommodations in her Saloons and Second Cabin, are more splendid and better arranged for comfort than any vessel ever sent from this port, and will compare favorably with the finest New York and Liverpool packets. In addition to her present extra lot of live stock and vegetables, she will lay in a fresh supply again at Realejo. Besides, stewards and cooks of the first class, and a large number of waiters, a regular baker has been engaged, and the tables will be furnished with fresh bread every day. Every precaution has been taken to insure the health of all on board. A well replenished medicine chest, milk, wines, sago, arrowroot, tapioca, prepared barley, and other suitable hospital stores, together with a large quantity of chloride of lime and other cholera preventives have been provided, and an experienced physician, a regular graduate of the Royal College of Physicians and Surgeons, of London, has been employed, who will attend to the sick, free of charge. The Captain is confident that he will make the trip as quick, if not quicker, than any sailing craft on the Pacific. One of the owners goes with her to see to the convenience of her passengers, and will be responsible for every statement in this bill.

The fact that we were the first to fit up sailing vessels in good style, furnished with mattrasses and bedding, and the first to supply our ships with fresh provisions and vegetables, as well as the first to reduce the price of passage to the present moderate rates, is a sufficient guaranty for the Dumbarton.

She may be seen at Buckelew's Pier, where persons are invited to call and examine her for themselves. Gold dust and treasure shipped and insured.

PROCLAMATION!!!

The Governor of the State of California, to all to whom these presents may come; Greeting:

In compliance with the long established and appropriate custom of our fathers, as well as in accordance with his own feelings, the undersigned, Governor of the State of California, hereby recommends that Saturday, the thirtieth day of November, one thousand eight hundred and fifty, be set apart and observed by the people of California, as a day of solemn thanksgiving to the Supreme Ruler of the Universe, for the unnumbered blessings bestowed by Him upon our young State and people; and especially for our admission into the happy family of States.

Given under my hand, at the Pueblo de San Jose, the fourth day of November, in the year of our Lord, one thousand eight hundred and fifty, and of the Independence of the United States, the seventy-fifth.

PETER H. BURNETT.

☞ It will be perceived by the following that the *Transcript* denies the charge made against us in this city, when the same is applied to themselves:

"UNJUST.—In Sunday's Alta California the Sacramento papers are charged with suppressing, from day to day, the actual number of deaths by cholera in Sacramento city.

"Touching this, we would merely make the following statement: That, as conductors of a press mindful of of our duty to the absent friends of the deceased, we have been unremitting in our endeavors to procure the name, age and residence of every individual who has died in Sacramento city, since the cholera first broke out.

"We feel that an unjust charge has been made against us, and believe that the editors of the Alta California will deem it proper to correct their statement. The editors of that paper remark as follows:

"'Through the exertion of our correspondent at Sacramento, we have been enabled to give the exact number of deaths that have occurred, and the progress of the disease in that city since its first appearance, not trusting at all to the suppressed and erroneous reports made up and published in the papers of that place.'"

"They then give a list of those persons who died between 1 o'clock, Nov. 7th, and 3 o'clock, Nov. 9th,—a period of two days.

"They will see the justice of our request when by reference to a file of our paper they will find every death in their list, published in our mortality reports of Nov. 7th, 8th and 9th, together with eight deaths additional, which they do not give in their list of 'the *exact* number of deaths that have occurred.'

"John Butterfield died on the 6th, as we have reported it, and not on the 7th.

"We do not know who the correspondent of the Alta is, but we distinctly assert that he has grossly and arrogantly misled our respected cotemporaries of that paper, and we think that the Alta would come quite as near the truth of matters by *'trusting'* to our report, rather than that of their correspondent."

Jenny Lind Bedsteads—We learn by the papers, that an invoice of 'Jenny Lind Bedsteads' has just been received by a commercial house in San Francisco. While this Jenny Lind mania is abroad, it is expected that some people will call their babies, horses, dogs and pets in general, after the name of this distinguished woman. But to make a piece of furniture notorious by appropriating for it such a name, is coming down from the subline to the ridiculous with a vengeance—it is absolute cruelty to the feelings of a modest, noble-hearted young lady. We suppose it will soon become customary in eastern cities, to have houses furnished with Jenny Lind bedsteads, Nightingale sofas, Swedish carpets, and Miss Bremer crockery. What a progressive people we are! [Sac. Trans.

ON THE WAY.—A very respectable man says that *those Indians* are really coming to take this town. He got in from somewhere in the back country on Saturday, and reported the exciting intelligence pretty thoroughly, so perhaps it is news to few now. The greatest apprehension does not prevail, and revolvers have risen "ne'er a dime." The story runs that 4000 were seen encamped together within twenty miles of Sacramento. This is just ten times as many Diggers as ever were known to be together before, even including the women and children in a rancheria, and they must mean something very dreadful. As they will surely get hungry, we would advise the merchants to send out some provisions, under a flag of truce. [Times.

DR. ROBINSON THE SQUATTER LEADER.—The New York *Courier*, in speaking of Dr. Robinson, the leader of the squatters in the collision with the citizens at Sacramento, and whose trial commences at Benicia to-day, speaks of him as follows:

"The Dr. Robinson, who is mentioned as having been shot at Sacramento, as a leader of the Squatter party, was a physician of Fitchburg, Mass., unmarried, about 30 years of age, and left this city in March, 1849, with the Congress and California Trading Company, under Captain Webber, for an overland journey to California. His companions describe him as a gentleman of good education, of excellent habits, and of peaceful and quiet disposition. While passing down the Ohio, on the way to St. Louis, the cholera broke out in the steamboat among the steerage passengers, and Dr. Robinson was with them night and day, administering comfort and relief. When he arrived in California, he put up a building near the banks of the river in Sacramento city, which was afterwards pulled down by order of the authorities, as it extended upon the street. What induced so peaceable a man to head a band, which attempted to defend by force of arms the seizure of property which had passed from its original holder to the hands of others by purchase, is a question which we have no means of answering."

APPOINTMENT.—Frederick P. Tracy has been appointed Notary Public, by the Governor.

☞ RULES OF PRACTICE OF THE COUNTY COURT OF SAN FRANCISCO—Sitting for the Trial of Appeals:

1. It shall be the duty of Justices of the Peace to endorse on the transcript the names of the Attorneys, if any, who appeared on the trial before him.

2. It shall be the duty of the Clerk to make up a docket of the causes entered for trial, in the order in which the appeal papers are filed; one copy for the court, and one for the use of the Bar.

3. Causes may be entered at the foot of the docket for trial, at any time during the first week of the term, by filing a stipulation to that effect.

4. A day docket of Jury causes will be made up after the first day of the term, from the regular docket, in their order, and of such as may be specially set down for trial by the Court, a list of which shall be posted by the Clerk on the Court-room door, and none others will be called for trial that day.

5. The party or attorney moving a jury cause for trial shall pay the jurors fees on the rendition of the verdict, and in default thereof will be held as standing in contempt and liable to attachment.

6. After the first day of the term, if neither party answer on a cause being called in its order, it will go to the foot of the docket.

7. No default will be taken on the first day of the term, and no cause will be tried on that day, except both parties are ready.

8. In cases where a jury is waived, it shall be the duty of the parties or their attorneys to file a stipulation to that effect with the Clerk of the Court on the first day of the term.

9. Witnesses may be examined *de bene esse* before the Commissioners appointed by this Court, on one day's notice to the opposite party, and in cases of emergency on such notice as the circumstances may allow.

10. Special motions will be heard on each day, at the opening of the Court, at ten o'clock, A. M., on one day's notice, or on an order to show cause.

11. The Court will be kept open by adjournment after the docket is disposed of, for hearing motions and such other business as may be necessary, on Monday of each week, at 12 M., until the commencement of next term.

12. In all cases not herein provided for, the rules of practice of the District Court will be followed. o19 tf

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, WHO wish Homes. Having completed my survey in the southern part of the city of San Jose, in all 900 lots, 25 by 47 1 2 varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 50 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen in any other north or east of us, in California; and the grain growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE AND HEALTH—Listen, now:—The average summer heat is 75 to 80 degs., with cool nights; no musquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer.—We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 110, sound in body and mind. We have had but one death out of the immigration of 1846, an old gentleman, who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law abiding and a law supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon to the subscriber in the south end of the city. JAMES F. REED.

SHERIFF'S SALE—By virtue of two several executions issued out of the District Court, Fourth Judicial District, within and for the county of San Francisco, the one in the case of R. S. Dorr, and the other in the case of Macondray & Co., against Jesse B. Hart, both being duly tested, and dated October 8th, 1850, and to me directed, by virtue of which said executions I have levied on all the right, title and interest of the said Hart of, in and to the following described real estate, situate in the city of San Francisco, the first lot being bounded on the southwest by an alley 50 varas, on the southeast by lands owned by John B. R. Cooper 23 varas, on the northeast by lands owned by John Thompson fifty varas, on the north by Jackson street 23 varas, excepting therefrom two feet, fronting on Jackson street, running back the same width eighty feet in the northeast corner of said property, sold to Cassaforth, and the fraction formerly occupied by the Ohio House, being in all twenty-two feet fronting on Jackson street, by eighty feet back and a fraction in the rear, sixty-six feet by fifty-seven and one half feet; and part of 100 vara lot No. 50, mortgaged for twenty-five hundred dollars, at ten per cent. per month, dated July 12th, 1850, in book A of mortgages, pages 289 and 290. Also, the right and interest &c., as aforesaid to that lot or parcel of land situate in said city, and being a portion of lot known on the map of said city as No. 334, and marked on the plan or map of said lot No. 334, as subdivided: Nos. 3, 4, 5, 6, 7, 8, 9 and 10, being the same premises heretofore conveyed to Jesse B. Hart by John H. Brown, excepting the lots conveyed to James McCabe, mortgaged to John H. Brown for four thousand dollars, at ten per cent. per month, dated June 1st, 1850, recorded in book A of mortgages, page 155. KLAMATH GOLD MINES, River and Town.—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing,) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of $1 50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Shultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

Any required information respecting the Mines, River, Town and Harbor, by application to Mr. John Gray, at Messrs. Schultz & Palmer, or to Mr. T. Bunting, at the firm of Worthington, Beale & Bunting, on Montgomery street. o16

THE PEOPLE OF THE STATE of California, District of the County of Santa Clara: Jose De Arnaz vs. Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey. Petition to foreclose mortgage, &c.

Whereas, JOSE DE ARNAZ filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioners's mortgage, and for general relief.

And it being proved by affidavit to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence and decreed accordingly.

Stewart, against yourselves and James A. Forbes, Robert Walkenshaw, and John Parrott, filed in the Clerk's Office of said court at San Jose, on the 5th day of October, 1850, by the said plaintiffs, to recover from you the possession of a certain tract of land; being a portion of the Rancho de la Canada de los Capitancillas, alias San Vicente, and bounded and described as follows, viz: all the western portion of said rancho lying between the rancho de las Capitancillas, belonging to William Wiggins, and the arroyo de los Alamitos, with a tract lying east of and along said arroyo, of half a mile in width, and running to the Sierra, which land, and more especially the Mine, Hacienda, and appurtenances of New Almaden, thereon situate, the said plaintiffs claim as their property, and that you unlawfully retain possession thereof since the first day of February, 1845. Wherefore they pray to have you ejected from the same, and to recover from you seven hundred thousand dollars, as the rents and profits thereof since the said 1st day of February, 1845, and also three hundred thousand dollars damages for the trespasses and wrongs by you committed thereon. And you are notified that unless you appear and answer said complaint at the time and place mentioned, that the same will be heard upon default and a decree entered accordingly.

Given under my hand and private seal, there being no seal of office yet provided at this office, this 17th day of October, 1850.
